LIST OF CONTENTS

Volume 9, Number 1 1992

CONTENTS

Indu B. Singh **Paul B. Silverman**	1	Enterprise Networking Strategy: A Critical Perspective
Hansuk Kim	13	Financial Aspects of Korean Telecommunications
Naren Chitty	21	Development Is Communication: Self-Reliance, Self-Development, and Empowerment
		Legislative and Policy Focus
Dominique Van Ryckeghem	43	Information Technologies in Brazil: Hope of the Third World?
David J. Atkin	53	A Profile of Cable Subscribership: The Role of Audience Satisfaction Variables
		PCN Update
Ted Y. Joseph	61	Personal Communication Services
	65	***NTIS Section***
	I	***Call for Papers***

Volume 9, Number 2 SPRING 1992

CONTENTS
SPECIAL ISSUE
PLANNING AND ANALYSIS OF
TELECOMMUNICATION NETWORKS

Donald A. Dunn **Reza Khorramshahgol**	69	Guest Editor's Note: The Right to Plan
Donald A. Dunn **M. Gens Johnson**	73	Cable-Telco Competition
Ruby Roy Dholakia **Nikhilesh Dholakia** **Albert J. Della Bitta**	87	Impact of Organizational Size, Number of Sites, and Line of Business on Telecommunications Acquisition
Kazuo J. Ezawa **James B. Scherer**	101	Technology Planning for Advanced Telecommunications Services: A Computer-Aided Approach
Hamid Mowlana	113	Communication Policy and Planning: An Integrative Approach
		PCN Update
Ted Y. Joseph	123	Current USA PCS/PCN Trials
	I	***Call for Papers***

Volume 9, Numbers 3/4 SUMMER/FALL 1992

CONTENTS
SPECIAL ISSUE
NEURAL NETWORKS AND ARTIFICIAL INTELLIGENCE TECHNOLOGIES FOR SPACE APPLICATIONS

James L. Rash	129	Guest Editor's Note
		Neural Networks
Marijke F. Augusteijn **Arturo S. Dimalanta**	131	Feature Detection in Satellite Images Using Neural Network Technology
Samir R. Chettri **Robert F. Cromp** **Mark Birmingham**	145	Design of Neural Networks for Classification of Remotely Sensed Imagery
Craig Harston **Chris Schumacher**	157	Improved Image Classification with Neural Networks by Fusing Multispectral Signatures with Topographical Data
		Diagnosis/Monitoring
Gardiner A. Hall **James Schuetzle** **David LaVallee** **Uday Gupta**	163	An Architecture for the Development of Real-Time Fault Diagnosis Systems Using Model-Based Reasoning
Donald P. Tallo **John Durkin** **Edward J. Petrik**	173	Intelligent Fault Isolation and Diagnosis for Communication Satellite Systems
		Distributed Intelligence
Richard M. Adler	191	Coordinating Complex Problem-Solving Among Distributed Intelligent Agents

Philip J. Rossomando 205 The Achievement of Spacecraft Autonomy Through the Thematic Application of Multiple Cooperating Intelligent Agents

Intelligent Information Systems

Robert F. Cromp
Erik Dorfman 221 A Spatial Data Handling System for Retrieval of Images by Unrestricted Regions of User Interest

Dannie E. Cutts
Brian K. Widgren 243 The Use of Artificial Intelligence Techniques to Improve the Multiple Payload Integration Process

Richard J. Greene
Christopher W. Hield 255 Data Exploration Systems for Databases

Antonio M. Lopez, Jr.
Marguerite E. Saacks 271 Logic Programming and Metadata Specifications

Special Topics

Hassan Gomaa
Larry Kerschberg
Vijayan Sugumaran 281 Knowledge-Based Approach to Domain Modeling: Application to NASA's Payload Operations Control Centers

Fernando Gomez
Richard Hull
Clark Karr
Bruce Hosken
William Verhagen 297 Combining Factual and Heuristic Knowledge in Knowledge Acquisition

Luiz S. Homem de Mello 313 Artificial Intelligence Approach to Planning the Robotic Assembly of Large Tetrahedral Truss Structures

Michael Lucks 331 Detecting Opportunities for Parallel Observations on the Hubble Space Telescope

Kenneth Messa
Matthew Lybanon

349 Improved Interpretation of Satellite Altimeter Data Using Genetic Algorithms

357 ***NTIS Section***

361 ***Call for Papers***

363 ***List of Contents and Author Index Volume 9, 1992***
